

Business Men, Over-Tired Housekeepers, Teachers, Students and Men and Women in the Whirl of Society Lack Rest.

Sweet sleep is nature's soft nurse. Half the fretfulness, sickness and complaining might be laid at the door of lack of sleep.

There is not one man or woman in ten thousand who can afford to do without seven or eight hours' sleep. All the stories about great men and women who slept three or four hours a night make very interesting reading, but no one ever kept healthy in body and mind with less than seven hours' sound sleep.

Americans need more sleep than they are getting. This lack makes them thin and nervous, weak and complaining.

But one cannot will one's self to sleep. If sleep will not come, there is an evident derangement of the nervous system. The tired, worn-out nerves need better nutrition to restore them to their healthy action.

The rapid building up of nerve tissues is what makes Paine's celery compound so prominently the great modern nerve and blood remedy.

Sleep is the time of lowered expenditure of nerve force and of increased repair all over the body. Paine's celery compound quiets the disturbed nervous system, feeds its impoverished tissues and robs them of irritability; sound, refreshing sleep ensues and the tired, despairing invalid starts at once on the way to assured health and strength.

A freshness in the countenance and an absence of that pained, worn expression comes after a short time taking Paine's celery compound. Neuralgia, rheumatism, palpitation of the heart, headaches and the host of discouraging signs of shattered nerves are banished by this great remedy. It makes people well. Students and teachers stand the fearful strain of preparation for spring examinations by building up the body, strengthening the nerves and purifying the blood with Paine's celery compound. It gives vigor to mind and body.

At the Old Stand.

On and after April 3rd, 1894, I will conduct my regular auction business at the old stand, in the Dougherty building, on West Centre street. Auctions every Tuesday, Thursday and Saturday evenings, and every Monday and Wednesday afternoons for ladies only. 4-3-1f

Special low prices to all in watches, jewelry and silverware at Holderman's, corner Main and Lloyd streets.

It will be an agreeable surprise to persons subject to attacks of bilious colic to learn that prompt relief may be had by taking Chamberlain's Colic, Cholera and Diarrhoea Remedy. In many instances the attack may be prevented by taking this remedy as soon as the first symptoms of the disease appear. 25 and 50 cent bottles for sale by Grubler Bros.

Steamship Tickets Reduced.

From Hamburg, Bremen, Antwerp or Amsterdam only \$21.50. To Liverpool, Queenstown, London, Belfast, Glasgow, only \$22. At Reese's Railroad and Steamship Office, Dougherty Building, Shenandoah, Pa. 4-4-1f

Those who never read the advertisements in their newspapers miss more than they presume. Jonathan Kenison, of Bolan, Worth Co., Iowa, who had been troubled with rheumatism in his back, arms, and shoulders read an item in his paper about how a prominent German citizen of Ft. Madison had been cured. He procured the same medicine, and to use his own words: "It cured me right up." He also says: "A neighbor and his wife were both sick in bed with rheumatism. Their boy was over to my house and said they were so bad he had to do the cooking. I told him of Chamberlain's Pain Balm and how it had cured me, he got a bottle and it cured them in a week. 50 cent bottles for sale by Grubler Bros.

Second-Hand Goods.

People having old furniture or carpets in fair condition can send them to Reese's auction rooms and realize good prices. One day every week will be set apart for the sale of this kind of goods. People who want to quit business can have their entire stock sold in a short time and realize good prices. Call on or address Reese's Auction and Commission House, Dougherty Building, West Centre street. 4-4-1f

Go and See It.

Keagey, the photographer, has a great \$3.00 bargain. Go and see it.

Buy Keystone flour. Be sure that the name LESSE & BARK, Ashland, Pa., is printed on every sack. 3-3-3aaw

Boston's Snow Shovel Society.

The Boston Society for the Prevention of Pauperism made arrangements, many years ago, for snow shoveling on the occasion of the great storms which sometimes visit New England. At such a time as that the railroad corporations are using all their own force to clear their tracks, yet it is necessary for them at the same time to clear the streets near their stations, and they need more force than they have. The system in Boston is this: The society owns a great number of shovels, ready for workmen. So soon as a heavy snowstorm comes on in the night every unemployed workman in Boston knows that by going to the headquarters of this society he may receive work at snow shoveling at the rate of \$1.50 a day. So soon as 20 men appear they have the shovels given them, and an officer is dispatched to take them to some place where work is needed. So soon as 25 men appear they are brigaded and carried off in the same way. At night they return and are paid by the society. In this perfectly simple arrangement every man is sure of his work, and the great establishments which need to clear their sidewalks are sure that it is promptly done. At the end of the week the society sends its bill to the various railroad stations, who then have no inconvenience in the arrangements for the work, while, on the other hand, the society is net out of pocket by the transaction. The original purchase of the shovels is the only expense thrown upon the industrial side.—Lead a Hand.

Hear in Mind

John A. Reilly's is the place to get the purest wines and liquors, best beer and ales and finest brands of cigars.

Our better halves say they could not keep house without Chamberlain's Cough Remedy. It is used in more than half the homes in Leeds, Sims Bros., Leeds, Iowa. This shows the esteem in which that remedy is held where it has been sold for years and is well known. Mothers have learned that there is nothing so good for colds, croup and whooping cough, that it cures these ailments quickly and permanently, and that it is pleasant and safe for children to take. 25 and 50 cent bottles for sale by Grubler Bros.

MAHANAY CITY.

Frederick Ulrich drove in from Tamand yesterday afternoon.

Levi Grim, of Tuscarora, was among the town visitors yesterday.

Jacob Albert, of Lebanon, who had been employed with Mahany Brothers for the past two months, left for Allentown yesterday.

Edward Weimer, of Sunbury, greeted old acquaintances in Mahanay City yesterday.

Samuel Stoyer, of Hamburg, made his weekly tour through town yesterday.

Andrew D. Kopp, of Tremont, called upon Mahanay City friends yesterday.

Henry Hoshier, of Shenandoah, came into town with the snowstorm yesterday.

M. F. Kinney, of Tamaqua, made business calls here on Tuesday afternoon.

Miss Agnes Kelly went to Philadelphia yesterday to remain several weeks.

M. J. Foley, a Slatington insurance man, was yesterday entertained by the McGuire family of East Centre street.

Miss Nora Brown, of East Mahanay avenue, is visiting her sister, Mrs. John Hannan, who lies quite ill at her home in Delano.

Frank Brecker, of Shenandoah, and John Showner, of town, will play a game of pool for \$50 a side in Clark's pool room, on Friday night, instead of Saturday, as before announced.

Martin Lynch is making preparation to open an attractive saloon at 136 West Centre street. Martin is well known in town and as he expects to sell a beverage of good quality will doubtless meet with success in his new venture.

An effort was made to operate the electric railroad this morning. One car was run ten feet out of the power house and stalled. A gang of shovelers are now making the snow fly.

The old Hayden Glee Club will soon be reorganized. The new plan is to charge an entrance fee and monthly dues, which will be used to open a handsome, furnished club room where the members may meet every night for practice, to discuss musical matters and otherwise employ their evenings. Other features will be a library and a smoking room.

Work on the Lakeside Electric Railway is being pushed rapidly forward. The wiring is completed, and the track, except a few hundred yards along Commercial alley, where the line crosses the L. V. R. R., and for the six tracks within the power house. The brick work around the big tubular boilers will be finished next week and the plant would be in readiness for operation within ten days, were it not for the delay occasioned by the steam fitters. Their contract calls for a completion of the work by April 28th, but they will not begin until Monday and from that time it may be four weeks until they can finish. The two engines, one Westinghouse, high speed, of 340 horse power, each, and coupled directly to the generator, no belt being used. The four boilers are of 370-horse power each. The fuel used will be pea coal.

Hard times seem to have no effect on the business of the weighing machines. The receipts in mention of the stand, including the L. V. R. R. station was \$2.18 for the past two weeks, about the same amount as when dollars and pennies were about twice as plentiful. With yesterday's receipts were two dimes, several buttons, four Hungarian coins, a beach check and a bit of paper money, which some heartless wag had inscribed "Good for one gold watch at Joyce's—Sanford."

The coins and buttons differing in size from a copper cent will seldom operate the machine and often cause it to clog and the next patron to get nothing for his deposit. The other morning Mr. Morris noticed a man vigorously pounding the top with a brick. "What's the matter, John?" inquired the clerk. "Well, me giv'it time, but no giv'it change and no giv'it weigh, mebbe shak'it out with brick."

Verdict in Dispensary Cases Delayed.

COLUMBIA, S. C., April 11.—The state supreme court convened in extra session yesterday, and an unusually large number of spectators were present under the belief that a decision on the dispensary law would be rendered. They were, therefore, disappointed when Chief Justice McEver announced that the court would take a recess until Saturday next. Nobody has any information as to the significance of the court's action, but subordinate attaches believe that the matter has reference to the dispensary law.

Coxey's "Unknown" a Detective.

PITTSBURGH, April 11.—The Dispatch publishes a circumstantial expose of the Coxey "Unknown" story. It is stated on good authority that he is a Swede by the name of Jensen, a resident of Chicago, and a detective. According to the story the "Unknown" receives a salary of \$50 a week, which is forwarded to him at convenient points about the route. Pinkerton agents are said to be in the army constantly, under the command of Jensen, and reports are regularly sent to Pinkerton headquarters.

COIN SHAVERS CAPTURED

They Have Robbed Many Gold Pieces of Half Their Value.

BALTIMORE, April 11.—A man and a woman are under arrest here on a charge of mutilating gold coin by lightening them. They are recognized as James L. Wilcox and wife, whose secret services, officers have been in search of for some months. They are members of a gang which has been operating extensively in the west. Their specialty was sweating \$30 gold pieces, and so successful have they been that it is estimated that from \$50,000 to \$75,000 in gold coin has been artistically shaved, remelted and passed again into circulation. The leader of the gang, W. F. Shaw, is still at large. Those under arrest are A. R. Peck, a dentist; Mr. and Mrs. J. L. Wilcox and Ralph Wilcox, a brother of J. L. Wilcox.

Shaw and Wilcox ostensibly conducted a real estate office in Chicago, but Wilcox, who is an expert mechanic, spent his time in a room on Adams street, in that city, skillfully trimming gold coins by means of a large lathe. Shaw opened an account at several banks where he deposited quite large sums of money, and then drew it out in gold at the rate of from \$200 to \$700 a day. Each morning he would deposit sufficient paper money to keep his account even. The teller of one of the banks became suspicious, and one of the secret service officers was called in, with the result that two of the gang were at once arrested.

The couple, who gave the names of James L. and Etta Foster, had a hearing before the United States commissioner, and in default of \$2,500 bail were committed to jail for a further hearing tomorrow. The Baltimore detectives who arrested them found on Wilcox's person \$40 in gold dust and twenty-one gold pieces of light weight. A number of similar light weight coins were obtained from merchants which had been given them by Wilcox in exchange for notes. Wilcox had also exchanged \$500 in notes for gold coin at one of the banks, and in his room where the couple boarded the detectives captured a complete sweating outfit.

Victory for Pure Elections.

HANBY, April 11.—One of the quietest municipal elections ever held in this city was followed last night by almost pandemonium on the public streets when the returns showed that the Democratic ticket had been defeated by a tremendous majority in favor of the pure election party, composed of Republicans and Independent Democrats. Repeaters from New York, Troy and West Troy who attempted to vote came to grief, ten arrests being made. In most instances the culprits confessed and were jailed. Oren E. Wilson, the Independent candidate for mayor, was elected over James Rooney by a majority of 3,424. Last year the Democratic candidate for secretary of state had 8,860 majority.

Belligerent Murderer Frendergast.

CHICAGO, April 11.—Prendergast, Mayor Harrison's murderer, is in a dungeon again. He entered it with blood flowing from his nose and struggling like a man. Prendergast, in charge of Guard Smith, was taking his exercise in the corridor when the prisoner sat down in a chair belonging to the guard. Smith told him that this was against the rules and that he must go into his cell if he wished to sit down. After some words Prendergast struck the guard a vicious blow on the neck, and in return received a crack on the nose that made him see stars. He will be kept in the dungeon until he agrees to behave himself.

Down an Embankment.

BOURBON, Ind., April 11.—A wreck occurred on the Lake Erie and Western railroad near Tyrer City. As a passenger train was pulling off of the station it struck a broken rail, derailing the mail, baggage and smoking cars, and rolling them down a ten foot embankment. John Shaw, brakeman, was instantly killed. Two passengers, whose names could not be learned and who could not speak, were fatally injured. John Baldwin, of Tyrer City, was thrown against a barb wire fence and may die.

Death of Judge Horace B. Burnham.

RICHMOND, April 11.—Judge Horace B. Burnham died at his home in Henrico county yesterday, aged 70. He was born in Cooperstown, N. Y., entered the United States army in 1861, and was retired as judge advocate general six years ago. He came to Richmond as judge advocate of the department of the south in 1867 and was judge of the Burlington court of this city under military rule. The interment will be at Arlington.

Dixon and the "Rosebud."

BOSTON, April 11.—There promises to be some fun in pugilistic circles about Boston next week. George Dixon is to spar at one of the local theaters, while his rival, the Kentucky Rosebud, has a week's engagement at a play house close by. Both are talking fight, but the Rosebud heretofore has been unable to secure sufficient backing. It is now reported that Monday the money will be put up for both parties.

Admiral Benham's Retirement.

WASHINGTON, April 11.—Somewhere between Caracas, Venezuela, and New York Admiral A. E. K. Benham yesterday retired from active service in the United States navy, by force of the law which prescribes that an officer shall retire when he reaches the age of 62 years. He had nearly forty years of service, and leaves behind a fine record for brave and faithful service.

Pattison at a Corner Stone Laying.

CLARION, Pa., April 11.—The corner stone of the model building of the Clarion Normal school was laid yesterday afternoon in a blinding snow storm. Governor Pattison's party arrived shortly after 1 o'clock, and after a lunch was escorted to the grounds, where a crowd of several thousand had assembled. The governor delivered the principal address.

Dynamite in a Providence Street.

PROVIDENCE, April 11.—A tear passing along Dyer street ran over a dynamite cartridge, which exploded with terrific force. Thousands of persons soon gathered in the vicinity, and rumors of an anarchist outrage were circulated. The wagon was partly wrecked, and a hole about three feet square was made in the roadway.

Big Iron Works Destroyed by Fire.

LYNCHBURG, Va., April 11.—The Glamorgan Iron and Pipe works were totally destroyed by fire. They were insured for \$50,000. Total loss, \$100,000. The works will probably be rebuilt at once on an enlarged scale.

A Triple Murderer Dies in Jail.

LAKE CHARLES, La., April 11.—The murderer, Herbert E. Parlin, who shot and killed three negroes Saturday night and who was himself shot on Monday, died in jail.

AN AGREEMENT REACHED

The Tariff Bill Will be Dismissed Without Dilatory Tactics.

WASHINGTON, April 11.—An agreement has been made that for the balance of this week the senate shall meet at noon and the tariff bill will be taken up at 1 o'clock and discussed until 5 o'clock without dilatory tactics.

The resolution of Senator Wolcott, providing for the coinage of Mexican dollars at American mints was agreed to.

The main feature of the day was the speech on the tariff by Senator Lodge. It was a scholarly and finished speech, giving evidence of much study and careful consideration.

Senator Quay introduced a resolution allowing the representatives of the textile workers of Philadelphia the privilege of entering their protest against the passage of the tariff bill next month. If the resolution should pass it will establish a dangerous precedent, it is said, as Coxe's army may demand the same privilege. There is no likelihood of its adoption.

The house devoted the whole day to the postoffice appropriation bill. The attempt to insert in the bill an amendment designed to prevent the bureau of engraving and printing from manufacturing postage stamps under the contract recently awarded to it by the postoffice department was defeated on a point of order. An amendment to classify as third class mail matter, novels, etc., published periodically on subscription, was adopted and the remainder of the day was occupied discussing the Kyle amendment to cut off the subsidy granted to the fast southern mail.

From the tenor of the debate the indications seem to be that the amendment will be defeated.

Interesting Mining Statistics.

STATE COLLEGE, Pa., April 11.—The April bulletin of the mining department of the Pennsylvania State college contains some interesting summaries from the advance sheets of the state mine superintendents. A comparison of the accidents resulting from mining and railroading shows that the former is not so much more dangerous than the latter as it is usually considered. Out of every 500 employees in the bituminous region last year one was killed; out of every 250 one was injured. In railroading employ one out of 300 was killed and one out of every 50 injured. The amount of coal produced in the state of Pennsylvania last year would give each family in the United States six tons—more than enough to supply all if it were so distributed. If loaded on cars the train would reach one and one-half times around the globe.

More Fighting in Brazil.

BERLIN, April 11.—Reliable dispatches received here from Rio de Janeiro announce that some serious fighting is taking place at Rio Grande do Sul, and that an important naval battle may shortly be expected. Five of the insurgent war ships are bombarding Rio Grande do Sul and the forts are replying with but little effect. The Brazilian government has dispatched ten war ships to the south with instructions to seek out and engage the rebel fleet at the earliest opportunity. Porto Alegre is also said to be seriously threatened by the insurgent forces landed by Admiral da Gama.

Mine Workers Will Strike.

COLUMBUS, O., April 11.—An incident occurred at the national convention of the United Mine Workers which shows that a national suspension of work will be ordered. Just before the convention adjourned for the day a delegate secured the floor and suggested that all who had come instructed to favor such a movement be requested to hold up their right hands. The words were no more than spoken until every hand in the house went up. The demonstration that followed was very significant, and the question of suspension seems to be virtually settled.

Death of the Prudential Marquis.

LONDON, April 11.—George William Thomas Brudenell Bruce, Marquis of Ailesbury, died yesterday in the house of a friend in Brixton, a southwestern suburb of London, aged 81. In 1854 he distinguished the aristocratic world by marrying Dolly Tester, a music hall singer, who, though a spinster, was already the mother of three children. Their riotous life scandalized the aristocrats, and they were socially ostracized. The marquis' debts at the time of his death amounted to \$1,250,000. The title and estates revert to an uncle.

The Creeks Will Keep Their Land.

MUSCOGEE, Ala., April 11.—The Creek Indians unanimously voted "no" to the proposition of the Dawes commission to surrender their lands to the government. The resolutions state that they decline to give up a system under which they have prospered, and to abandon their institutions, the outgrowth of centuries, to exchange their land tenure for the system that is reducing the great masses of the people of the United States to pauperism and discontent, in exchange for a territorial government.

Coxey's Bills Indefinitely Postponed.

WASHINGTON, April 11.—Senator Kyle, from the committee on education and labor, reported to the senate the two Coxey bills, which were introduced by Senator Peffer. The committee recommends indefinite postponement.
